

## Centre-Step Card Template

Dimensions are 4 ¼" x 11"

Cut a piece of cardstock 11" x 4 ¼"

Measure Down 4 ½" and make a **SCORE LINE** ¾" in from the left edge, and from the 3 ½" mark to the right hand edge.

The thick red lines on the template indicate where you're scoring.

Now **SCORE** at 5 ½" down from the top and ¾" in from the left hand edge, across to the 3 ½" mark.

Now **SCORE** 9" down from the top, from the outer left edge and in ¾", then again from the 3 ½" point across to the outer right edge.

**Score** at 10" down from the top to match the previous scorelines.

Finally, **CUT** where indicated on the diagram, vertically from the 4 ½" scoreline to the 10" scoreline on each side.

Once all your scorelines and cuts are made, fold the card to resemble the sample at the top of the page.
